

## **JM LEARNING: WHERE YOUR CHILD BECOMES HIS OR HER BEST!**

Ensure academic success with the most cost-effective investment in your child's future...

AT EVERY GRADE, for any subject, for every test, JM Learning is where your child can achieve mastery! JM CEOs Jonathan and Sheyda Milman explain how; "We create an educational environment where our students actually enjoy learning, and once that happens, mastery follows."

JM focuses on providing a college level education for all their students, despite age or ability, and propelling every student forward in his/her journey through academia. From Gifted and Talented preparation, private school SSAT/ISEE exams, SHSAT preparation, NY State Regents, AP classes, SAT/ACT and college prep, JM embodies its motto, "For Every Level of Difficulty, We Offer a Level of Mastery."

With new locations within Matchpoint NYC, a fitness and sports destination for the entire family, JM has combined academics with athletics to achieve the ultimate after school program.

This Brooklyn-based tutoring center delivers cutting-edge programs in a state-of-the-art environment, which is designed to help your child grow into a confident and independent learner.

"JM Learning has had a great impact on my academic life," said JM student Mohamed Hany. "I started because the majority of my friends couldn't stop mentioning it. The first time I attended a lesson, I already felt as if I knew everyone there. JM provides a very comfortable environment and enough resources for me to excel in my work."

A seat at JM is the most cost-efficient investment a parent can make in their child's future, whether that child is in Kindergarten or well into his/her college career. "The first step is assessment," explained Jon Milman. "Who is your child, academically speaking, and how do they learn?" Then we will design personalized, specific lesson plans according to the needs of your child - delivered by professional tutors in every subject, from elementary to high school and beyond.

"It's the best tutoring center in all of NYC," according to JM student Daniel Masarsky. "The tutors make you succeed in any subject."

The JM Learning program immerses your child in an environment that fosters nothing short of excellence. The result is a student who is confident, can work independently, and actually enjoys learning. With these fundamentals in place, your child can master every academic level, while earning exceptional school grades and standardized exam scores.

“We’ll guide you and your child through all the competitive educational transitions,” said Jon Milman, “From the elementary school honor roll to the top middle schools; high school entrance exams into the city’s best high schools; SAT/ACT exams into the top colleges.”

“When I started the program”, said JM student Jacob Kapustin, “I was scoring 1000/1600 on a practice SAT. Now I am scoring consistent 1500s.”

JM Learning is a college preparatory program, working with students from the beginning of their academic career to the end. With the staggering costs of higher education, parents are often forced to opt for less expensive alternatives. This is not the case for JM students, whose grades and SAT/ACT scores earn not only acceptance to the country’s elite universities, but also scholarships and grants. The list of universities that have accepted JM students for the year of 2018 includes Harvard, Dartmouth and Columbia.

At JM Learning, parents finally have the opportunity to ensure a successful academic career for their child. “It’s our promise,” said Milman. “At any grade, at any level, JM learning is the place where your child can become his/her best!”
